WHAT DOES SUPPORT COORDINATION INVOLVE?

From Mamre's extensive experience in assisting people with disability and complex needs, we have tailored our Support Coordination service to empower people to exercise choice and control when identifying and purchasing the supports and services required to achieve their goals.

A Support Coordinator will help you put your NDIS plan into action. The Support Coordinator will help you understand what you need to implement your plan and monitor supports. Our Supports Coordinator will then manage the services as you need them.

WE WILL SUPPORT YOU TO

- Understand your NDIS plan and goals
- Understand what supports and services are funded by the NDIS
- Provide you with information about what supports and services are available
- Facilitate information sharing between providers
- Negotiate services and pricing to develop your budget that lasts for the life of the plan
- Empower you to access and coordinate supports identified in your plan
- Link you in with your local community
